

*Revealing*

# Veris EC, pH, & Elevation

Know your field below the surface

## Improve your field's potential!

- ✔ Create management zones for effective variable rate applications of inputs (lime, fertilizers, seed, irrigation, ...)
- ✔ Enhance NRCS soil maps with updated field specific soil EC maps
- ✔ Gain a lifetime decision tool in a single EC operation
- ✔ Integrate layers into variable rate irrigation and drip irrigation zones
- ✔ Ensure data integrity with a team of veteran operators
- ✔ Increase pH sampling density vs. grid sampling

- \* **Pressed for time?** Multiple rigs are available to handle any acre load in a timely manner.
- \* **Remote location?** Willing to explore opportunities at any location.

**Our consultants deliver quality Veris data and team with you to provide solid management decisions**

Ask about our services designed for  
Producers ✦ Farm Managers ✦ Landlords ✦ Applicators
